A SOLUTION FOR THOSE WHO HUNT IN COLD CLIMATES

HEATJAC™ BTR TORSO-BELT models, powered by Li-ion batteries. The temperatures and durations are controlled by the size of the battery.

Three Unique Features:

- 1) All BTRs can be connected to our 12V, 7.5A Transformer for continuous power, temperature, and duration.
- 2) Because the heat is directed outward, away from your torso, higher temperatures can be thrown off compared with the usual battery powered vests or jackets. These function as wearable radiators!
- 3) Change any of your existing camo into heated camo without modifying your camo.

HEATJAC™ BTR 2600 P/N – HJBTR2600 (S,M,L,XL) - \$243.00

11.1V, 2600 mAh Li-ion Battery

150s degrees F. for 2.5 hours

130s degrees F. for 3.5 hours

100s degrees F. for 7 hours

HEATJAC™ BTR P/N – HJBTR (S,M,L,XL) - \$275.00

11.1V, 5200 mAh Li-ion Battery

160s degrees F. for 5 hours

140s degrees F. for 7 hours

100s degrees F. for 13 hours

HEATJAC™ BTR BEAST P/N – HJBTRBEAST (S,M,L,XL) - \$320.00

11.1V, 8000 mAh Li-ion Battery (The Beast)

160s degrees F. for 10 hours

140s degrees F. for 13 hours

120s and upper 100s degrees F. for over 24 hours

HEATJAC™ TRO P/N – HJTRO (S,M,L,XL) - \$246.00

POWERED ONLY BY OUR 12V, 7.5A Transformer

3xs the Heating Surface Area of our BTR Models

160s degrees F. for infinite duration

140s degrees F. for infinite duration

120s degrees F. for infinite duration

100s degrees F. for Infinite duration

OPERATIONHEATJAC® TRANSFORMER SET P/N – OHJBTRTS - \$101.97

Transformer Set Converts any BTR Model into Continuous Power

Includes: 12V, 7.5A Transformer with 15' US Power Cord, 4-Level Controller, S25S13 Adapter

Temperatures with the 12V, 7.5A Transformer and 4 Level Controller

100% output: in the 170s degrees F

75% output: in the 150s degrees F

50% output: in the 130s degrees F

25% output: in the 100s degrees F
